

Daffodil International University (DIU)  
Faculty of Business and Entrepreneurship  
Department of Business Administration  
Program: BBA

Examination: Final-term  
Full Marks: 40

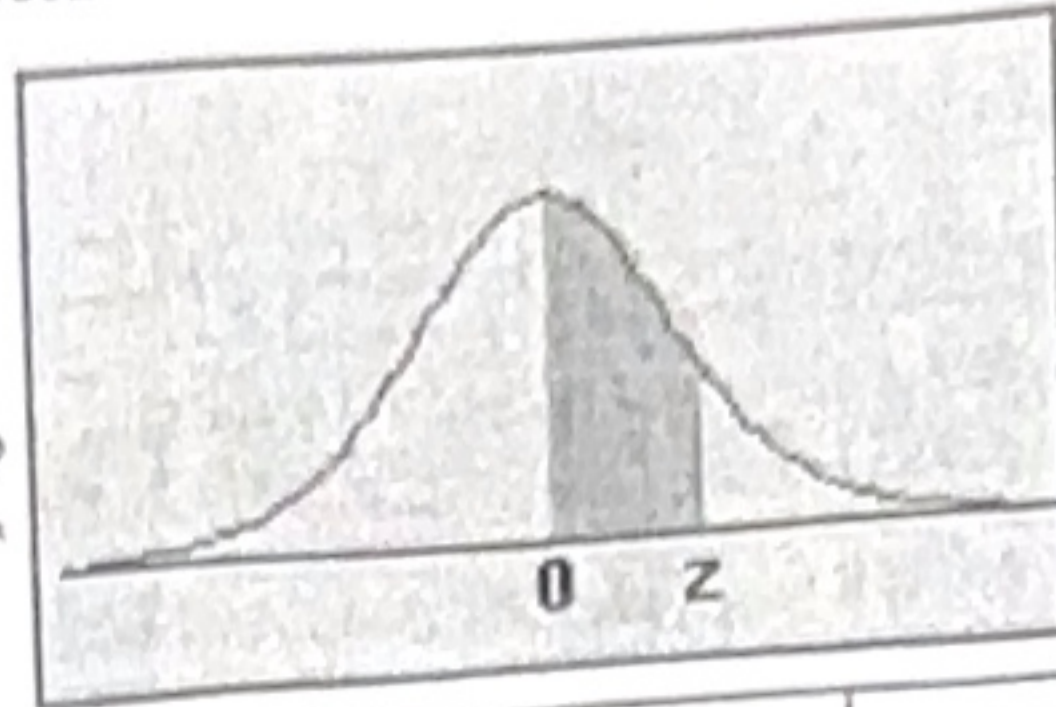

Semester: Spring-2026  
Time: 2 Hours  
Course Code: 0419-322  
Section: 65 C

Course Title: Business Research Methodology  
Teacher's Name: SA

(Answer All Questions)

1. (a) A researcher has collected raw data from a survey on customer satisfaction in a retail business. Before analysis, the data must be properly processed. Describe the major methods of data processing in research (Your answer should include editing, coding, classification, and tabulation with practical explanation.)  
(b) After processing the data, the researcher needs to present the findings effectively for decision-making. Explain different data presentation techniques used in business research. (Illustrate with suitable examples such as tables, charts, and graphs.)  
[CLO-3: L-4] 6 + 4 = 10 marks
2. (a). Define hypothesis and describe its characteristics.  
(b) In a survey of buying habits, 400 men shoppers are chosen at random in supermarket "A". Their average weekly food expenditure is Tk.250 with a standard deviation of Tk.40. For 400 men shoppers chosen at random in some other supermarket "B" the average food expenditure is Tk.220 with a standard deviation of Tk.55. Do these two populations have similar shopping habits? Is the average weekly food expenditure of two populations of shoppers equal? Test at a 5% level of significance.  
[CLO-3: L-4] 5 + 5 = 10 marks
3. (a) Distinguish the difference between Null hypothesis and alternative hypothesis.  
(b) Identify the key differences between the z-test and t-test with an example.  
[CLO-4: L-5] 5+5 = 10 marks
4. (a) Explain the standard format of a research proposal.  
(b) Determine the characteristics of a good business report.  
(c) Justify that a bibliography and references are not the same thing in a business report.  
[CLO-4: L-5] 4 + 3 + 3 = 10 marks
